<b>FOETIDAS/RUGOSAS</b>		<b>(OR= Own Root)</b>	
<b>FOETIDAS:</b> Rose foetida had its genetic roots in the Georgian Caucasus mountain region. This group is also noted for its tough disposition bringing bright colors to harsh climates.			
<b>RUGOSAS:</b> Rugosas are a species valued for landscape use. Cold hardy to zone 2 and frequently used in mass plantings in coastal areas or highway plantings, their disease resistance, flower and hip interest provide seasonal color with little maintenance. Many grown on own root.
